Coming soon: re-runs of many of our shows. They will be available at www.everydaypeopletvshow.com. We will keep you posted!

- Two women bonded for life when they met. They were both fighting their battle against 4th stage breast cancer. **Marianne Esposito, the Executive-Director of the Terri Brodeur Breast Cancer Foundation (TBBCF)** recounts the story of amazing and brave women Terri Brodeur, and Norma Jean McPhail Logan, and how their journey of hope lives on through their efforts and the TBBCF (founded by Norma Logan and Sandy Maniscalco). Marianne brings both enthusiasm and experience to TBBCF and to Everyday People. By the way, 100 percent of money collected goes to cancer research!

For more information on this year's marathon to be held Saturday, October 1, 2011 starting at Saybrook Point.

- **First Class Coast Guard Cadets Rachel LeClaire, Adam Petersen, Holly Madden and Danny Piazza** are on-air to relate stories from their final summer aboard US Coast Guard Training Ship Barque Egel. They will melt your hearts with the sparkle in their voices and their excitement as they recount their memorable days at sea. All our officers in training and they are smart, well-spoken and our future. The hope of Everyday People show host Ann Buonocore is that these guests will encourage you to visit this magnificent sailing vessel, Barque Eagle, brimming with history and docked at New London Connecticut's Fort Trumbull through September 19th this year.

The Barque Eagle is open for tours from 8am-4pm seven days a week through September 19, 2011 while in it's home-port.

- Did you ever wonder if you can catch a cold from exposure to air conditioning? If so, then **board certified eye, nose andthroat specialist and surgeon, Dr. Yael Halaas** has the answer for you. You may or may not be surprised by her answer but you will be amazed when you visit her website for further information.
