AUDRINA PATRIDGE

A Stunning Smile

The *Hills* hottie set blogs abuzz on December 11 after she debuted a darkly glamorous look and jet-black mane at an L.A. *Direct* magazine charity event. Could Patridge's plump pout just be a case of lipstick illusion? "She does look dramatically different. I wouldn't be surprised if she's adding filler in her lips," says NYC plastic surgeon Yael Halaas, who has not worked with Patridge. Adds NYC cosmetic dentist Deborah Glassman: "Her teeth had been out of alignment. Now they're straight. Porcelain veneers can change the shape and color at the same time." Patridge's rep could not be reached for comment.
